math mammoth grade 4 a worktext international version is the student worktext for the first half of grade 4 mathematics and part of the math mammoth grade 4 complete curriculum this book covers addition subtraction patterns graphs large numbers and place value multi digit multiplication time and measuring the worktext contains both the necessary instruction and the problems and exercises the text and the work thus a worktext and is for the most part self teaching please note this is a student worktext and does not contain the answers features math mammoth focuses on conceptual understanding it explains the why so your children can understand the maths not just learn how to do it concepts are often explained with visual models followed by exercises using those models these visual models can take the place of manipulatives for many children however it is very easy to add corresponding manipulatives to the lessons if so desired the curriculum is mastery oriented this means it concentrates fairly long on a topic delving into its various aspects this promotes conceptual understanding as opposed to spiral curricula that often tend to jump from topic to topic too much there is a strong emphasis on mental maths and number sense it requires very little teacher preparation which is a big help to most parents the curriculum has no separate teacher s manual nor is it scripted the introduction to each chapter has some notes for the teacher concerning the material in the chapter all the instruction is written directly to the student in the worktext and there also exist accompanying videos where you can see maria herself teach the material after each chapter introduction you will find a list of internet links and resources games quizzes animations etc that can be used for fun illustrations and further practice for multiplication tables and division facts you can use our online practice program free the other parts of math mammoth grade 4 international version are grade 4 b student worktext grade 4 answer keys and grade 4 tests and cumulative revisions

spectrum math for grade 4 keeps kids at the top of their math game using progressive practice math in everyday settings and tests to monitor progress the math workbook covers multiplication division fractions geometric figures and preparing for algebra a best selling series for well over 15 years

spectrum still leads the way because it works it works for parents who want to give their child a leg up in math it works for teachers who want their students to meet—and surpass—learning goals and it works to help children build confidence and advance their skills no matter what subject or grade spectrum provides thorough practice and focused instruction to support student success

for courses in elementary mathematics methods and secondary mathematics methods this fully revised edition provides examples of how to use the internet to support learning mathematics in ways that reflect the nctm principles and standards for school mathematics

engage students in mathematics using growth mindset techniques the most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts in this volume you ll find a collection of low floor high ceiling tasks that will help you do just that by looking at the big ideas at the first grade level through visualization play and investigation during their work with tens of thousands of teachers authors jo boaler jen munson and cathy williams heard the same message that they want to incorporate more brain science into their math instruction but they need guidance in the techniques that work best to get across the concepts they needed to teach so the authors designed mindset mathematics around the principle of active student engagement with tasks that reflect the latest brain science on learning open creative and visual math tasks have been shown to improve student test scores and more importantly change their relationship with mathematics and start believing in their own potential the tasks in mindset mathematics reflect the lessons from brain science that there is no such thing as a math person anyone can learn mathematics to high levels mistakes struggle and challenge are the most important times for brain growth speed is unimportant in mathematics mathematics is a visual and beautiful subject and our brains want to think visually about mathematics with engaging questions open ended tasks and four color visuals that will help kids get excited about mathematics mindset mathematics is organized around nine big ideas which emphasize the connections within the common core state standards ccss and can be used with any current curriculum

summer link basic learning skills grade 4 provides the skills your child needs to master for fourth grade use summer link basic learning skills grade 4 to review and retain the math reading and language arts skills learned in third grade help your child prepare to take on new material with confidence in school this fall let summer link basic learning skills grade 4 help build fourth grade success for your child
